

BIOFORTIFICATION

The First Global Conference

Nov. 9-11, 2010 Washington, D.C.

Mark your calendar

Meet with experts from around the world to take stock of progress made in developing nutrient-rich crops, share lessons learned, and chart the future of this emerging agricultural innovation for public health.

November 9–11, 2010
Georgetown University Hotel & Conference Center
Washington, D.C.

If you are interested in attending and receiving more information, please email biofortconf@cgiar.org. If your organization is interested in sponsoring a participant or having an exhibit, please type “sponsor” or “exhibit” in the subject line, and a conference representative will contact you.

This Conference is organized by:
